COMMUNITY

This year the Center made an impact on more people's lives than ever before. The demand for our programs and services was greater than ever and **we could not continue to meet the increased need without your vital partnership.** We have a vision for a community where all of its members thrive. Although our challenges are great, we believe we can achieve this vision together. This report is a summary of what we accomplished together in just one year. Imagine the difference we can make in the future.

Mahalo for your support,

Barbara Campbell, Board Chair

Caroline Hayashi, President
